PROFESSIONAL SUMMARY

Aspiring and motivated Computer Science student seeking an opportunity to gain hands-on work experience and apply theoretical knowledge in a professional setting. Passionate about contributing to real-world projects while enhancing problem-solving and collaboration skills. Eager to learn from industry experts and adapt to dynamic work environments. Looking forward to a role that fosters growth and practical exposure.

EDUCATION

- **MVGR college of Engineering** 2022- Present
Computers in cybersecurity,iot and blockchain technology
CGPA: 8.74
- **Narayana Junior College** 2020- 2022
MPC
Percentage: 97%
- **Bhashyam High School** 2020
10th
Percentage: 99%

SKILLS

- **Languages** : Python, c, c++, java
- **Frontend Technologies** : HTML,CSS, JavaScript, xml
- **Tools** : Vscode, Xampp, Git
- **Operating Systems** : Windows, Linux, Unix
- **Database** : MySQL

INTERNSHIPS

- **Salesforce Virtual Internship**
Completed a virtual internship focused on Salesforce fundamentals, including customer relationship management (CRM) concepts, data handling, and workflow automation. Gained hands-on experience in leveraging Salesforce tools to optimize business processes and enhance user engagement.

PROJECTS

- **Food donation platform** : Developed "FeedTheNeed," a food donation platform using HTML, CSS, JavaScript, and PHP. Facilitated seamless food donations by connecting providers with orphanages through an efficient system.
- **Earthquake Detection and Visualization System**: Developed a Python-based earthquake detection system using the USGS API for real-time data. Integrated Geopy for alerts, Matplotlib for visualizations, and Folium for interactive mapping.
- **Organ donation platform using blockchain**: Developed a blockchain-based organ donation platform ensuring secure, transparent donor-recipient matching. Implemented Solidity smart contracts for automation and used Ganache for testing.

CERTIFICATES

- Basics of python.
- Frontend Web developer.
- IT Essentials.
- Introduction to Networks.
